FIFTEEN CENTS

Wilmington Selectmen

WILL ASK FOR \$13,000 FOR ELECTRIC STUDY

Wilmington's Selectmen, Monday night unanimously voted to ask the Town Meeting to transfer a sum of \$13,000 for a study of the electric light and power facilities of Wilmington.

The vote came after a half hour discussion among the Selectmen and with George H. Hooper, Chairman of the Electric Light and Power Committee, appointed by the Selectmen. Also taking part in the discussion were the Town Manager and Joseph Courtney, attorney and former Town Manager. Mr. Courtney was a member of the light and power study committee that was in existence about a dozen years ago.

Hooper told the Selectmen that he had been doing a considerable amount of research, but had gone as far as the conditions permitted. The average electrical engineer, he said, could not and would not cooperate with such a study because of the fact that Boston Edison was involved as a supplier to the Reading Municipal Light Department. Edison is involved with many studies that have to do with the Edison Company, and the engineering firms found themselves in a position where they could not get involved. A complicated position, but one that makes some sense from their viewpoint.

The study, he said, had been privately financed, as he had no town funds - no telephone or stationery.

Hooper could find only one reputable firm that was willing to do this, and has been engaged in such type of study. He had a letter from the firm which he exhibited to the Selectmen.

The firm, he said, was willing to develop an in-depth study on the following:

1. Broad scale projections on load demands, by various categories, based on an analysis of land usage.
2. Develop future cost curves for power purchased in bulk, based on assumptions reflecting generation costs.
3. Investigate the feasibility of a peak shaving generating plant, to reduce demand costs.
4. Develop cost estimates for severing the electric power system from the current supplier.
5. Determine owning and operating costs to the Town of Wilmington for various modes of municipal operation.
6. Make an analysis of environmental impact of plant facilities on the community.
7. Determine the tax implications of municipal operation.
8. Investigations to determine the land requirements for a physical plant.

GEORGE HOOPER, Reporting to the Wilmington Board of Selectmen

The study, the firm said, would include a "degree feasibility" report on the entire problem.

In discussing the problem Selectmen George Boylen and Carl Backman were strongest in support of the proposals of Mr. Hooper. The others agreed but to varying degrees, with Selectman Banda afraid that a "power structure" might evolve, with another committee in charge of itself. Mr. Banda was mollified when the other selectmen assured him that any committee to be named would have a two year limit.

Joseph Courtney, being asked of previous studies, said that the two committees that had existed, about a dozen years ago, did a lot of work, but always ran into a stone wall when it came to discussing problems with the Reading Municipal Light Department.

The boards, he related, were thus just created in name only. For they never got any real assistance from any of the Wil-

mington officials in their studies. Chairman Boylen re-iterated for the third time that Mr. Hooper and Mrs. Diane Fielding were the only two persons on the Electric Light Study Committee of Wilmington.

ARTICLE PROPOSED BY GEORGE W. HOOPER FOR LIGHT STUDY COMMITTEE

George W. Hooper, Chairman of the Wilmington Light Study Committee, proposed to the Selectmen, as elsewhere related, that an article be in the warrant for the Special Town Meeting for a study of the electric light and power facilities of Wilmington.

The proposal of Mr. Hooper, which will undoubtedly be amended before it reaches the Town Meeting floor, reads:

To see if the town will vote to establish an Electric Light and Power Study Committee, said committee to consist of not less than three and not more than seven members, to be appointed by the Board of Selectmen and Town Manager; and to instruct and direct said committee to undertake a comprehensive study and analysis of the technical and financial feasibility of establishing a Town owned and operated municipal electrical utility and department, and, for said purpose, to appropriate by taxation, by transfer from available funds or prior appropriation by borrowing or other wise, for the employment of qualified consultants and experts to assist said Electric Light and Power Study Committee; and for the payment of other expenses of said committee; provided said appropriation is expended under the direction and authority of the Board of Selectmen and Town Manager or do anything in relation thereto.

Two year old drowns in freak accident

A two year old Tewksbury boy died yesterday afternoon when he accidentally fell into a rubbish barrel and was drowned in six inches of water.

Police withheld the name of the child pending the notification of his parents.

Mrs. Jean Ray of 5 Woodcrest Road told police she was babysitting for the child, whose parents were working, when the mishap occurred.

She said she was providing a snack to a number of children in her home. When she joined the children on the front porch, just before 2 p.m., she asked where the boy was. The children said he had walked up the road.

Mrs. Ray and several neighborhood women then searched the area. When she went behind her home she looked beneath her rear porch and found the boy.

THE GARDEN OF ARTHUR: At the Hanrahan home on Salem Street, Wilmington was the charming site for a meeting of the North Eastern Banzai Association, Saturday. Seventy five home keepers who are interested in the miniature Japanese plants were in attendance. Nick Carter, of Stoneham, the president is shown with the little English greenhouse behind him. In front, hardly visible, is the Hanrahan Gold Fish Pond.

25 Voting Machines (Count 'em) for Wilmington voters next Tuesday

WILMINGTON'S TOWN CLERK ASKS VOTERS TO ARRIVE EARLY

Mrs. Esther Russell, Town Clerk of Wilmington has requested that voters make an effort to arrive at the polls as early in the day as possible, so that the usual rush hour (6:30 to 8 pm) will be a little less crowded.

When using paper ballots, Wilmington had 105 voting booths. Using voting machines there will be 25. It takes less time to vote on the machines, but in being limited to fewer machines than booths, there could be waiting lines if citizens don't cooperate to the utmost.

Voters are asked to study the ballot beforehand so that they will not have to decide while using the machines, but will be prepared to vote at once. You are allowed five minutes at the machine. If help is needed, citizens are advised to ask for it.

Three operations in voting by machine:

1. Close the curtains by pulling the red handle to the right. The voting pointers cannot be moved until the curtain is closed.
2. Pull down the voting pointers over the name of each candidate for whom you wish to vote (You will see a red cross). Pull down a pointer over the "yes" or

MRS. RICHARD COGAN, President of the Wilmington League of Women Voters is one of several ladies who are spending their time demonstrating the use of using a voting machine, in Wilmington places. Here, at Lucius she is demonstrating to a voter how easy it is to "write-in" a name.

"no" of each question. The machine will not permit you to vote both "yes" and "no"; nor will it permit you to vote for more than the designated number of candidates. If you change your mind, simply return the pointer originally pulled down and pull down the one you wish. Leave the pointers down! The curtains will not open if a pointer is not

FATHER AND SON GRANGE MASTERS

Roland Desharnais of South St., Tewksbury will be installed as Master of the Middlesex Essex Pamona Grange at a joint installation to be held on Saturday evening, September 23rd at 8 o'clock in the Union Congregational Church on Haverhill St. in North Reading. On the same evening, his son John will be installed as Master of the Wilmington Grange.

Mrs. Marion Johnson, a member of the National Grange and the Assembly of Demeter will head the installing team.

The meeting will be open, and the public is invited to attend.

TEWKSBURY MEN ENLIST IN NAVY

Arthur G. Nowicki, son of Mr. and Mrs. Charles F. Nowicki of 4 Columbia Rd., Tewksbury and Thomas M. Crowe, Jr., son of Mr. and Mrs. Thomas M. Crowe of 3 Patriot Ave., have recently enlisted in the US Navy and are undergoing recruit training at the Naval Training Center, Great Lakes, Illinois.

Upon completion of recruit training, the men will receive leave and then report to one of the Navy's Class "A" schools.

Antonelli and Baldwin Disagree at Forum

Two Tewksbury candidates for state representative in the Democratic primary took widely divergent stands on local zoning, equal representation and other issues at a political forum Monday night.

Eighty persons heard Frank A. Antonelli and Frederick H. Baldwin Jr. read prepared statements at the meeting, sponsored by the Tewksbury Taxpayers Assn. in Knights of Columbus Hall. After the speeches, the candidates, who are also town selectmen, underwent a 75-minute question and answer session.

Antonelli and Baldwin disagreed on several issues.

Local Zoning
Antonelli said zoning and building codes should be standardized throughout the state.

Baldwin said, "I don't think the small towns throughout the commonwealth should be forced by the state to take zoning multifamily, low-income dwellings for the prime purpose of eliminating the problems of the cities such as throughout the ghetto areas and so forth." He said, however, though he believed in local zoning, he didn't support zoning lots of more than an acre.

Equal Representation
Antonelli said he favored a cut in the number of state representatives. "I want to see fair representation throughout the commonwealth."

Baldwin said, "I am opposed to cutting the size of the house. Under one-man-one-vote rule, the towns and suburbs do not have fair representation." He said the cities would have more power in a smaller House of Representatives, "and the cities are going to be more responsive to their needs than to the towns and suburbs."

Town Charter
Antonelli said, "I would once again be in favor of the charter commission as I was before. I feel the town has outgrown this kind of government."

Baldwin said he would oppose the town charter if it were submitted again in the same form. "I think there were good parts to it, but there were many bad parts too." He said he would consider a completely new charter.

Fire and Police Chiefs' Salaries

Antonelli said he opposed a House of Representatives vote which would have the state determine the salaries of police and fire chiefs instead of towns. "I was opposed to this piece of legislation when it came before the house, and I am opposed to it now. I don't know how they can tell us what kind of salaries we can pay when we have to pay the taxes for them."

Baldwin said, "I would have voted for this. He said the goal of the bill was 'to pay these men what they should be paid,' and included provisions of department sizes and other factors which would determine the salaries."

Different Approaches

The two candidates also believed in different approaches toward solving a number of social and governmental problems.

Why State Rep?

Antonelli said, "We just haven't had our representation in the past four years, and I feel I can represent the people. I want to help most of the people of Tewksbury and the people of the commonwealth. I want to give everyone an equal shake, and I feel I can do this as a state representative."

Baldwin, "I think the commonwealth in the past has in many cases taken a back seat to many other states. I want to represent the people of Tewksbury and the whole commonwealth." He said the legislature had missed many chances he would aim for, such as streamlining county government.

Legalizing Pot

Antonelli said, "I would be opposed to any legislation to legalize marijuana. I don't believe substances such as this should be made available." Baldwin said the problem of legalizing marijuana should be studied further before the state decided on the matter.

Legal Abortions

Antonelli he believed in the public dissemination of birth control information for all citizens regardless of ability to pay, as an alternative to legalizing abortions.

Baldwin said, "It is a question

It's That Time Again Community Fund

It seems that we've barely completed one drive when another one starts. But a year has actually passed and again we are passing the hat, this time from September 9th to October 15th and the goal is \$15,000.

Sometimes we are asked - Why a community fund just for Wilmington? Aren't there plenty of organizations and agencies both state and federal, that take care of all sorts of needs for our citizens? The answer is a qualified yes, but agencies are bound by rules and regulations (and rightly so), or are set up for specific needs or purposes. What happens when someone needs aid that is not provided

by an agency or when there is a waiting period involved? When a man is drowning and needs a lifesaver tossed to him, he is not concerned with where the lifesaver should come from, the left or right bank, whether the lifesaver is a jacket or the round type, etc. Well, the Community Fund is the lifesaver and after the man is safely on shore, then a decision can be made as to where he is to go for further assistance.

The Community Fund also cuts down on the number of drives conducted in Wilmington. If you think you are bogged down now (and who isn't?), think how much worse it would be if the Community Fund did not contribute to the Boy and Girl Scouts, Campfire Girls, Red Cross, Cerebral Palsy, etc.

The Wilmington Community Fund, while small as such funds go, is most effective in meeting the needs of our town. As long as our people continue to give as generously as possible, the town's needs will be met. It depends on you!

K of C outslugged Jay-Dee Builders, 19-15 to cop the one-pitch softball tourney Monday night at Town Park. Fourteen teams took part in the three day affair in which all proceeds, including entrance fees and concession monies were donated to the Kevin Nolan Memorial Scholarship Fund.

In opening round action Saturday evening, Sweetheart Plastic edged Smithcraft, 10-8; K of C defeated Silver Lake Pharmacy; Soderholm Construction tripped Compugraphic, 6-2; Wedgewood Restaurant outscored McNamara

Tire, 14-12; Jay-Dee nipped Lipton Pet Foods, 1-0; Jim Miceli Club belted Brewster's and National Polychemical bombed N.A.P.A., 23-7.

Saturday night three quarter round games were played with K of C drawing a bye. Soderholm edged Sweetheart, 5-3; Jay-Dee belted Wedgewood, 16-5 and Miceli Club trounced Polychemical, 14-5.

A selectmen's hitting contest was the highlight of the evening as Jim Banda (4 for 6) and Dan Gillis (4 for 6) tied for the championship. Carl Backman and Mike Caira finished tied for third with three hits apiece while George Boylen was able to make contact on only hit and it cost him dearly. Frank Sferazza, Chairman of the Recreation Commission made 5 for 6, but was eliminated because he practiced during the little league season.

In the all-star clash the Townies topped the Industrials, 9-5 behind the pitching of Dave Rumson and the hitting of Bill Ritchie (3 for 4 including a homer) and Joe Langone (4 for 4 including a solo round tripper). Paul Burke took the loss for the Industrials. Jim McMullin slammed a homer, while Bill Swan belted out three hits in a losing cause.

Representing the Town Division were: Pitchers Dave Rumson (Silver Lake Pharmacy) and Dave Newhouse (Jay-Dee); catchers George Pratt (Miceli Club) and Joe Langone (Jay-Dee); infielders Bill Ritchie (Jay-Dee); Jim Melzar (Jay-Dee); Jim Tildsley (Jay-Dee) and Ken Sarchione (Miceli Club); outfielders Rick Norton (NAPA); Dennis DiMaggio (Wedgewood); Pete Emery (Jay-Dee) and Eddie Harrison (Jay-Dee). Dave Newhouse was selected as the division's MVP.

On the Industrial squad were: pitchers Paul Burke (NPI) and Jim Hachey (K of C); catcher Ed Doherty (Sweetheart); infielders Bill Swan (Smithcraft); Bill Landry (NPI); Jim McMullin (K of C) and Steve Lien (Sweetheart); outfielders John Rose (Sweetheart); Dave Johnson (Brewster's); John Smalley (K of C) and Paul O'Donnell (Smithcraft). Jim Hachey was awarded as the MVP of this division.

Jay-Dee scored two runs in the

last of the seventh inning in Monday's semi-final action to edge Soderholm, 16-15. K of C ripped the Miceli Club, 12-5 to advance into the finale. Bill Ritchie slammed a pair of homers for Jay-Dee, while Jim McMullin belted a solo blast for the tourney winning Knights.

**MVC Grid
Jamboree
Saturday**

The first annual Merrimack Valley Football Conference Jamboree will take place at Andover this Saturday afternoon at 1 o'clock, with four games scheduled.

Coach Bellissimo's Wildcats meet Billerica in the lid lifter, and then Dracut faces Burlington at 1:35. Methuen tackles with Central Catholic at 2:10 and Andover clashed with the Redmen of Tewksbury at 2:45.

Each contest will consist of two eight-minute periods, and teams will be allowed three time outs apiece.

**Boosters open on
victorious Note**

Coach Lentine's Wildcat soccer eleven opened their 1972 Northern League season with a come from behind 2-1 triumph over Methuen Tuesday afternoon at the North Intermediate Field.

Trailing 1-0 entering the second half, Ralph Decker knotted the score at 1-1 with a penalty kick midway into the third stanza. The winning goal also came off the foot of Decker as the Wildcat center-forward booted home the score at 13:40 of the final frame. Wayne Crosswell picked up a well deserved assist on the second Wildcat goal.

Prior to the game seniors Tom Aprile, Decker and Bob Swisher were elected tri-captains of this season's squad, while Crosswell will be the alternate captain.

The boys return to action this afternoon entertaining, powerful Andover. Kick-off is listed for 3:15 at the North Intermediate Field.

SWIM TEAM TRYOUTS

Swim Team tryouts at the North Suburban YMCA will be held on Wednesday, Sept. 20th for boys and girls 12 years and under from 5:30 to 7 pm and on Thursday the 21st of Sept. for those 13 and over from 7 to 8:30 pm.

Diving team tryouts will be held on Fridays at 7 pm for boys and girls, 8 years and over.

**Chargers rip
North Reading, 28-0**

BOBBY APRILE (NO. 30) SWEEPS RIGHT END; Behind the blocking of Robert Sferazza (No. 31) enroute to the Wilmington Charger's third td in last Sunday's 28-0 triumph over North Reading.

A first in Wilmington Pop Warner football took place last Sunday as Bobby Aprile ran back the opening kick-off 85 yards for a Charger td. In the nine year history of midget football in Wilmington this fete has never before been accomplished.

Coach Barry's eleven went on to score three more touchdowns for an impressive win over the newcomers from North Reading. Robert Sferazza (a pair of te's) and Aprile again provided all the Charger scoring with some fine running aided by excellent blocking by the entire offensive unit.

The first and second defensive squads were immense throughout the contest in a good opening game performance.

In the third period the second offensive unit led by quarterback Tom Bavota and halfback Dave McMillan moved the ball excep-

tionally well for an inexperienced group.

The "B" squad came from behind to tie the Hornet younger set, 6-6. It was a hard earned tie as the first year North Reading eleven put forth a fine effort against a more experienced Wilmington team.

This Sunday the Chargers travel to Methuen in a twin bill beginning at 12:30 with the "B" squads followed at 2 o'clock by the "A" teams.

My minister says God isn't dead, it's just the other side's turn at bat.

Civilization began when the first man aside "why?" And it will end when the last man stops asking "why?"

THANK YOU

The Wilmington Adult Softball League and the Wilmington High School Booster's Association would like to thank the following who helped to make our 1st Annual Kevin Nolan Memorial Softball Tournament the tremendous success that it was.

I'd like to express my sincerest appreciation to all those who made possible and attended the fund-raising testimonial banquet in my honor Friday night.

Governor Sargent and Senator Brooke were as genuinely impressed with as I am proud of the wonderful people supporting my candidacy. Financially, I understand, the function was a huge success, primarily through the participative generosity of all those attending and secondarily through the contributions of those unable to be present. I'm honored and encouraged, and I thank you, one and all.

Sincerely yours,

Good nutrition is absolutely essential if your child is to be healthy and strong.

Food should supply a balance of proteins, carbohydrates, minerals, vitamins, fats and water.

A growing child should have a daily diet of meat, butter, milk, eggs, citrus, fruits, wholegrain cereals, and green and leafy vegetables as well as yellow vegetables.

Studies have been made which show direct correlation between a child's diet and how well he performs on the playground and in the classroom.

Special Report

by Bill Kirtz

"People assume that either private citizens or public institutions can own land. There is a middle way."

So says Edward Webster of the International Independence Institute, whose organization is interested in sparking some unconventional Massachusetts moves to put undeveloped land to the best possible use.

The Institute is located in Ashby, near the New Hampshire border. From there, it has followed with interest, and often with participation, efforts in such varied parts of the state as Harvard, Wayland, Worcester and Lincoln to establish some form of a "land bank" to protect vacant tracts.

Under this "land bank" or "land trust" theory, a cross-section of area residents would determine a tract's "best use" and then lease portions of it to developers, farmers or conservationists.

When the lease expires, the land would revert back to the "bank" for a reappraisal of its best use.

Now, communities can acquire land either by eminent domain or by agreeing with owners on a fair purchase price. Generally, conservation is the motive—with large tracts of land acquired on a year-by-year, parcel-by-parcel basis geared to the community's financial ability.

This method, however, allows developers to move in ahead of public bodies and snap up available land.

Beyond conservation

A "land bank," proponents say, can reflect public wishes, speed up land-taking and widen the possibility of open space use beyond conservation.

Get to the Point

At two recent meetings of the Tewksbury selectmen, crowds of more than 100 persons had to wait until 8:30 before the Board was gavelled to order, a half-hour after it was scheduled to meet.

Several persons who had business with the selectmen, or wanted to hear discussions about the police department that highlighted those sessions, had to go home before subjects that concerned them were considered. Not a few waited in patient boredom.

Many persons questioned why matters of general concern couldn't be taken up first at selectmen's meetings. Others shrugged their shoulders and mumbled that all public officials share a common creed of procedure for procedure's sake, whether to the point or otherwise. Still others questioned why the whole process had to be delayed an unnecessary half-hour.

We believe key subjects, whenever possible, should be considered first in public meetings, for the Tewksbury selectmen are by no means alone in keeping citizens waiting while they discuss matters of little concern to the majority. Some public bodies make the Tewksbury selectmen look as unswervingly to the point as police reporters.

Placing key items first on agendas is by no means a radical proposal. The Gloucester City Council and many other

The state's Department of Natural Resources and the federal Outdoor Recreation Bureau are working with Lincoln area plans to determine what open spaces and historic sites should be protected in that area, to widen the public's control over privately-owned land.

In Wayland, they're going further by authorizing the concept of a private land trust to sell tracts to the town for specific uses. If the intended use isn't adhered to, under this plan, the tract reverts back to the land bank.

Such groups as the Audubon Society have for years been setting Massachusetts land aside for wildlife sanctuaries, public recreation and watershed protection. Members of these organizations are interested in the example set by Maine. There, one land trust specializes in buying land, restricting it to protect ecological and social values and then selling or giving tracts to people or groups committed to these values. Other such land trusts and banks are in formation there.

Mr. Webster notes that the International Independence Institute has developed America's largest land trust: 5,735 acres in Georgia. More than 800 families will settle there in three "town clusters," with an industrial park, a cultural center and school and health facilities planned to supplement farming activities.

The land trust concept works well in Israel, Mr. Webster adds, where the Jewish National Fund owns some 60 per cent of all the land.

"This eliminates speculation," he says. "The public or the trust buys the tract at its market value."

public bodies have for years followed a policy that public hearings should always be held first in meetings, and whenever possible, matters of extreme public concern be considered early. They knew that many citizens were taking time from their private lives to exercise their rights in a republican state, rights that those officials felt should be made as easy to utilize as possible.

As for the half-hour delays, we can only suggest that the selectmen permanently schedule their meetings at 8:30 if an earlier time is too inconvenient for them.

While some selectmen obviously need time to catch their breaths before considering town business, it isn't necessary that they spend that time behind the closed doors of an executive secretary's office, as the majority of selectmen did prior to their delayed meetings.

Someone might think they were having an executive session, a private discussion of matters they were about to take action on in public. This impression would be unfortunate, because everyone knows that it is illegal for a government body in this state to have an executive session without first calling the meeting to order in public and then voting to go behind closed doors.

No one would want anyone to think that lawmakers such as a majority of Tewksbury selectmen would so obviously break the law.

He's more relaxed driving at 175 mph than watching TV

by Bob Morris

Don MacLaren admits, "I work hard at my job, but even if I'm suffering from the flu or something, one good weekend of automobile racing makes me feel like a million dollars."

MacLaren does work hard as owner and manager of Five D's Welding on Main Street in Tewksbury, and he frequently feels like a million dollars when he returns to work Mondays.

Weekends he races supermodified cars that have no restrictions on power or anything else. Using supermodified and other high-speed cars, MacLaren has won more feature races at speedways than any other driver in current competition. Feature races pit the winners of all other races in a day against each other.

Though only 37 years old, MacLaren has been involved in racing for a long time. "I could drive a car and truck when I was nine years old," he said. "I always liked the speed and the sound of an engine."

When MacLaren was 15 years old, he altered his birth certificate to add three years to his age and raced a "late model bomber," a hopped-up new car, at Norwood Arena. "On the night of my 16th birthday I won my first feature. That was some present," he recalled.

Since that first important win almost 22 years ago, MacLaren has won victor's laurels in European road races and more than 460 features at 100 or more tracks from New Brunswick to Florida.

During those years he progressed from late model bombers to supermodifieds. He owned the majority of cars he raced, but since 1966 has been driving cars owned by Ed Bowley, who runs Tewksbury Auto Parts.

The Oswego Speedway Eagle has called Bowley's latest car, Flyin' 5, "one of the best looking and fastest roadsters around." It has a 500 cubic inch engine, a displacement 150 per cent greater than engines permitted at Indianapolis.

Supermodifieds such as Flyin' 5 are only raced at a certain number of tracks, such as the one in Oswego, N.Y. Oswego is rated just under Indianapolis in prestige, but is actually the fastest speedway in the United States. MacLaren has had the car up to 175 miles an hour, but normally races at from 160 to 170.

"Those speeds are on a track with a straightaway only five eighths of a mile," explained MacLaren. "If I ever just drove that car in a straight line with my foot to the floor, we would have to have wings on it to keep it on the ground. It would go so fast it would just take off."

MacLaren said the greatest moment in his racing career came last month, when he won a feature at Oswego. "It wasn't only that Oswego is the fastest

track," he said, "it was also because Ed Bowley's been going out there for 11 years without ever winning, and it was good to help him with the victory."

Racing overpowered cars for two decades is bound to leave scars, but most persons who meet MacLaren are struck by his robust good health and apparent lack of any physical impairments. This springs from a peculiar kind of good luck. He gets hurt, sometimes badly, but he always recovers.

"I've been hurt hundreds of times," he estimated. "Just about everything there is to break, I've broken at one time or other." His worst crash left him with a shift lever sticking through his temple, four broken ribs and internal injuries. He was four months in the hospital and blind in one eye for a year afterwards.

Although MacLaren is a family man, he says his wife, Beatrice and five children, Donald Jr., 14, Douglas, 13, Dennis, 12, Darrin, 11, and Bonnie, 4, support his racing efforts. "You can't succeed in anything unless your family backs you up 100 per cent," he said.

MacLaren shrugs off suggestions his wife might fear for his safety. "I was racing before we were married, and she knew what she was getting into," he said.

He added that Mrs. MacLaren races cars too. There was a touch of false jealousy in the pitch of his voice when he admitted, "She won her first race title before I did, but of course that was a Powder Puff Championship at Hudson, N.H., several years ago, and the women don't race as fast as men."

MacLaren said his children love his hobby. "Whenever possible, the kids watch the races,

WINNING ON WHEELS: Tewksbury's Don MacLaren has captured more than one winner's flag with the aid of, from left, Ed Bowley, who owns the car MacLaren races, Bill Murray of Tewksbury and Dave Crehan of Wilmington. Others in the racing team are Tewksbury's John Duggan and Tom Bowley.

even when the going gets rough," he said. He seemed concerned when he added, "Don Junior especially likes the racing, and it just scares the daylight out of me when I think that he may try to be like me, but not have my luck."

Fear is something MacLaren has never experienced where his own safety was concerned. "A driver has to think fast and

can't have anything on his mind but what he is doing. He positively can't think in any shape or form of getting hurt. The day I start worrying about getting hurt is the day I quit racing," he said.

He admits, however, that he has felt fear for the well being of other persons. "I won't race with anyone in the car because I would be too worried about

him," said MacLaren.

The veteran racer showed special concern for young persons who race on highways. He said, "The kids don't have the knowledge or expertise needed to race the high-powered cars we have today. Driving on a racetrack will help a driver on the road, but being a fast driver on the road doesn't mean you would be

St. Dorothy's School of Religion

Late registration for St. Dorothy's School of Religion was conducted last week. No textbooks were distributed and no money was collected. These will be taken care of by the teachers in class and the area captains.

No unregistered student of any grade will be accepted for class after Oct. 1st, unless he or she has just moved into the parish from another area.

Regular classes will begin the first week of October, with the exception of the home program for grades one, two and three which will begin during the week of September 17th.

The high school home program will begin during the week of October 8th.

Monday, Oct. 2nd, grade seven opens in the lower church at 7 pm.

Thursday, Oct. 5th, grade eight opens in the lower church at 7 pm.

Saturday, Oct. 7th, grades five

and six, double sessions at the Glen Road School and grade four, double sessions in the lower church.

Grading: will not be based on or determined by examination results and there will be no report cards. Students will be graded on: 1) regular attendance, no more than four absences will be allowed unless hospitalized or dismissed by the administration; 2) good conduct and participation in classwork and 3) completed home assignments.

Parents will be notified when any student disrupts the class and if after three notifications, no change has taken place, the student will be dropped from the program. He or she will not be permitted to move to the next grade without repeating the one from which he or she was dismissed.

Any high student who would like to assist in the classroom or office on Saturday mornings,

please report to the Glen Road School on Oct. 7th in the assembly hall.

Special Meetings

Sept. 14th: Orientation night for teachers of grades four, five and six at 8 pm.

Sept. 17th: Important meeting of all parents of seventh grade students at 7 pm in the lower church.

Sept. 18th: Special meeting of all parents of grades one, two and three, 8 pm.

Sept. 19th: Governing Board of the School of Religion and Church program.

Sept. 20th: Orientation night for teachers of high school students.

Sept. 21st: Teacher training session, 8 pm.

Sept. 26th: Teacher training session, 8 pm.

Sept. 27th: Possible high school registration, 7 pm.

Sept. 28th: Teacher training session.

WILMINGTON SENIOR CITIZENS HEAR KERRY

for people to serve for a few hours in the evenings, especially Friday evenings. A few hours a week, or every other week, day or evening, will be appreciated by the patients who need a friend.

An orientation meeting and tour of the hospital will be held on Thursday, September 21st at 7 pm in the board room of the hospital. Mrs. Michael MacDonald of Winchester, vice-chairman of the Volunteer Services Committee, will meet with all interested persons to explain the role of Friends at the hospital and the opportunities available for volunteer service.

John Kerry, Democratic candidate for the Fifth Congressional seat, held a bean supper recently for 30 people at the Wilmington Housing Project for the Elderly at 41 Deming Way.

Kerry addressed himself to the problems of the elderly in the district. "After a lifetime of productive service to the community, our Senior Citizens deserve something better than poor health care, isolation or low incomes, which is the lot of many of the retired."

Kerry went on to say that if elected, he would give full support to Senator Kennedy's bill for a national health insurance

Come on, Alice. Pull yourself together.

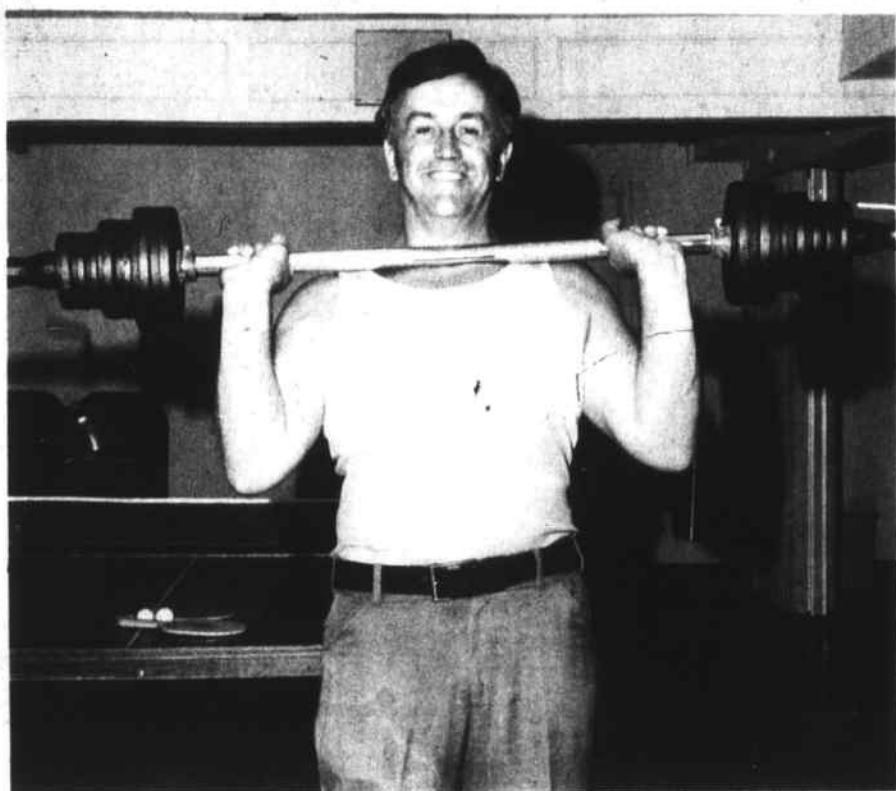

Get Uni-Statement. It's the one monthly statement that reports both your checking and savings accounts, and it makes managing your money a whole lot easier. And here's the thing, Alice. With Uni-Statement you can transfer money between your checking and savings accounts whenever you wish. This means that you can shift funds from checking to savings to earn daily interest and transfer it back again when you write checks. And you can add a Line of Credit to your Uni-Statement account—a reserve to tap when you need it... And pay for at low bank rates only when you use it. It's like this, Alice. We're just trying to help you manage your money better.

Middlesex Bank

The bank that helps you manage your money.

Tony helps calm the troubled Youths

TONY FERRARA: Practising weight lifting, in the gymnasium of the Church of the Nazarene, in Melrose.

Tony Ferrara of Cedar Street, Wilmington, is well known to many as an excellent carpenter and cabinet maker. That's the way he made his living for about twenty five years. Among other things he built the home in which he and his family lives.

But there has been a new and better call to life for Tony. Part of it was told in the Town Crier about a year ago.

Tony works in psychotherapy, in the Eastern Middlesex Mental Health Association, in Melrose. It is in an activity center in that city where he helps young people calm themselves, by sports.

For the past nine years he has been going to school. Evening school - where at first he made up his deficiency of only two years of High School, and was awarded an Equivalency Certificate.

That step taken, Tony started on what had been his secret goal. He was interested in Psychology. He wanted to study, to learn. That's where the next seven years went, and he still has a year or so to go.

Tony is now an Associate. In a year or two he will have a Bachelor's Degree, from Northeastern University.

But, for Tony, the big news is that he is working as a therapist.

Tony is using a new method of psychotherapy, called psycho-kinetics. That is a Greek word, and it combines the words for "mind" and "motion".

He works in a gymnasium, with every kind of equipment that may possibly be needed. But it isn't only gymnastics, Tony says.

The point is to fulfill the unique needs of the individual.

Rather than fit a person into a program, this is the place where the program is fitted to the individual. The program is held in the Church of the Nazarene, in Melrose Center.

The church is in charge of the Rev. Deane R. Grady, and Tony could want no better sponsor. He is a nice man, says Tony. "We get along great!"

Troubled youngsters can find at this place an answer to their problems. There are understanding people, and there are things to do. There is always some volunteer who can fill the particular need, in providing guidance for a youngster and his problem.

Everyone has a need for self-achievement, says Tony. "We help them to find it. That is a part of the answer."

Everyone, he says, has a need for giving. Perhaps this is too dramatic sounding, but it isn't. When someone can give of himself, then he has something to give, in abundance. That is a part of the psychology of Tony's work.

Tony has worked now for four months, in Melrose. He is going to stay there.

He got his training in the physical aspects of his present work in the YMCU, (Young Men's Christian Union) in Boston. He has had 20 years of weight lifting, or exercises, there.

The YMCU is an important part of the background of Tony Ferrara, director of Therapeutic Activities at the Nazarene Church in Melrose, as a part of the Eastern Middlesex Mental Health Guidance Center.

Tewksbury Selectmen Okay Power Line

The Tewksbury Board of Selectmen Tuesday night unanimously granted a permit for New England Power Co. to lay a 345 kilovolt line across town streets.

The permit was granted on condition no line tower be built within 100 feet of a dwelling. That condition came after Selectman Frank A. Antonelli suggested one of the 70-foot towers might accidentally fall onto a nearby home. He noted at least one home was only 60 feet from a tower.

Action on the permit came after David Beattie, a former town selectman and present representative of the power company, and James Lennox, co-ordinator of the Tewksbury Environmental Conference, presented widely separated figures on how much it would cost to lay underground lines instead of the tower system.

Beattie said the portion of the line through Tewksbury would cost \$600,000 above ground. He cited the 1967 Rockefeller Report on the Environment. It esti-

mated underground lines cost from 16 to 40 times as much as those above ground, depending on circumstances.

Lennox, who was critical of the line, presented a 1970 study made by the Journal for the Institute for Electrical and Electronic Engineers. That study, he said, estimated underground lines cost only 5.2 times as much. He added that another poll indicated the public was willing to pay more for electricity to offset the increased cost of underground lines.

Lennox also disputed Beattie's claim underground lines took much longer to repair. The environmentalist said a new technique using a van allowed workers to find breaks quickly.

Chairman Joseph J. Whelan noted the board only had jurisdiction over lines running across town streets, not lines across private property. Lennox agreed, but added, "If you asked them to run lines below streets, you would, in effect, make them go underground everywhere."

Whelan said he doubted such a stipulation would hold up in court. Lennox answered, "Until you force them somewhere to put them underground, they are not going to do it."

Beattie said his firm would do everything possible to preserve the natural environment along its right of way, and added that Beattie wanted underground lines at any cost.

In other action, the selectmen: - Granted a liquor license to the North Meadow Tennis Club on Carter Street at East Street.

- Announced the state Department of Public Utilities will hold a public hearing September 27 in Town Hall auditorium at 10 a.m. The hearing is aimed at gathering the opinion of residents concerning installation of a tank of propane gas at Tewksbury Gas Co.

Bob McLaren
(From Page Four)

a good one on a track.

"If all those kids who race on the road got on a track, they wouldn't be as fast on the road anymore. I'm sure if you lumped racing car champions together and compared them to any other group of sporting figures, you would find they have fewer speeding tickets."

He nevertheless added, "I don't encourage people to race. I've tried to stop myself, but I can't. I love it too much."

MacLaren said the qualities a racing car driver needs "are 50 per cent something you are born with, and 50 per cent what you learn." The most important of these, he believed, were good reactions, a quick mind and calmness in the face of danger.

Like most American racing car drivers, MacLaren probably hopes someday to win at Indianapolis, but right now he has a more immediate goal, winning the 1972 championship at Oswego. "This year, for the first year of running out there, we are in

of waste materials, cleaning of the Shawheen River and the streets of Tewksbury and a mini-dump clean-up.

Mr. Lennox will discuss the future goals of TEC such as the purchasing of much needed equipment to make recycling easier for the volunteer worker, buying playground equipment for Rogers Park, and the establishment of "compost" centers.

According to Mr. Lennox, numerous groups and individuals noting the importance of a clean environment continue to aid Tewksbury with volunteers and equipment. Much praise should go to these people who include teenagers and local businessmen.

This meeting will be open to the public. Anyone wishing to make breakfast reservations should contact President Ed Hoell at 851-2831 or Don Kolesar at 851-7206.

PAUL CRONIN URGES ASSISTANCE TO ELDERLY

Raising the amount of money Social Security recipients can earn without losing benefits and the 100 per cent payment through Medicare for prescription drugs to the elderly has been urged by Congressional Candidate Paul Cronin.

"It is time we did more for the elderly," stressed Cronin. "These are the people who have worked the longest to build our nation. They have earned the right to a decent retirement."

The former chief assistant to

Congressman F. Bradford Morse noted that the highest cost for many elderly people was the payment for prescription drugs.

"I feel this 100 per cent reimbursement through Medicare for prescription drugs would be one of the fastest and best ways to increase the useable income of our elderly citizens," Cronin stressed.

He also urged that the amount of income Social Security recipients are allowed to earn be increased without losing benefits.

"I think the elderly have earned a right to decent housing. They need and deserve protection for fixed income. They deserve the opportunity to contribute from the great experience of their lifetime."

"I urge that the total income limit within Social Security be increased to \$10,000 annually. The elderly should be free to earn money above Social Security limits in order to maintain a higher standard of living."

Cronin called for the federal government to require all vested pension plans to follow the worker whenever he changes jobs and not revert to the state when the man leaves.

"This," he noted, "would mean a much higher income for most retired people. This is money people have worked for and it is money they should receive upon retirement no matter how many employers they may have had in their working career."

James Lennox to address St. Williams HNS

St. William's Holy Name Society will have James Lennox of the Tewksbury Environmental Conference (TEC) as their guest speaker at the monthly communion breakfast on Sunday, Sept. 10th. Scheduled at Mass at 8 a.m., celebrated by the Spiritual Director, the Rev. Sheldon Kelly; breakfast in the Parish Center, short business meeting followed by the guest speaker at 9:30.

Some time ago, the League of Women Voters held a general meeting concerning the topic of Environmental Control. Officials from the Department of Environmental Health were invited to attend. Approximately 50 people were on hand among which was a representation from the Tewksbury Rod and Gun Club, Conservation Commission, Shawheen Watershed Association and the townspeople in general.

From this initial meeting groups interested in environment collaborated on a number of projects, namely: recycling

Mini-Buses Operating at full Throttle

Two new mini-buses are making their daily rounds to and from schools in and out of Wilmington. The two vans were purchased from Wilmington Ford at a bid price of \$3,316.00 each.

The purchase of the mini-buses became possible thru Federal funds approved under P.L. 90-576. The annual cost of operating the mini-buses, plus driver's salaries, will be 50% reimbursed to the Town by the State Department of Education.

The newly selected drivers of the school mini-buses are both from Wilmington. They are Ronald Kennedy, formerly employed by Trombly Motor Coach, and Louis DiGregorio, a former town employee.

The vans are sporting a factory fresh coat of school-bus yellow paint and are fully equipped with safety features to include safety belts, four-way flashing lights with a special top mounted light package, plus all four sides are clearly marked with the words "School Bus" to identify the business of the vans.

Ten special children are being transported to and from all three secondary schools in town, and ten more special children are being transported to and from five elementary schools in town. Nine other special children are being transported to and from North Reading Rehabilitation Center, Tewksbury Hospital School, Lowell Redevelopment Center and Lowell Hermann

YOU CAN GET IN JUST AS MUCH TROUBLE BY PASSING A MINI-SCHOOL BUS: While it is loading or discharging school children. Wilmington now has two, for use with special education programs. The drivers, above, are Ronald Kennedy (left) and Louis DiGregorio.

School. The two mini-buses are used during mid-day to transport school lunches to schools without kitchens, perform mail deliveries, and to accomplish other transportation needs of the school system. The vans will be saving the Town of Wilmington over \$7,000.00 in transportation costs

during their first year of operation. In previous years, similar payers, much higher cost to the tax-services were contracted at a

Tewksbury 4H Photography Club

Liborio A. Salamone, Leader, Tewksbury 4-H Photography Club announces the club's 1972-73 season, which include an election of officers, instruction by guest speakers in still camera, motion picture photography and darkroom procedures. Major highlights of the season include: - Skit Night sponsored by a local Boy Scout Troop. - Completion of a reel comedy "The Big Fight," which will be shown at the annual 4-H Achievement Night. - Photographing the 1972-73 Tour of the KaySal Ballroom Dancers. Famous Plays with

Young Players of the Theatre in the Round Group, The Snow King and Queen Gala, Children's Holiday Parade, 4-H Town Committee Members and Demonstration Night by Tewksbury 4-H Clubs, Annual 4-H County Fair in Westford, Mass.

- Salamone, the staff and members will go to New York City for one week on a photographic tour to complete the season.

- As a special treat members will participate in a Gilbert and Sullivan Operetta Revival to be staged in Tewksbury.

WANTED

Young Men and Women, Age 13 through 21. If you play a bugle, trumpet, trombone, french horn, alto horn, baritone horn, tuba or drum (or would like to) - if you like fun, travel and music, and if you are willing to put in some time and work - come join the 85 members of the Wilmington Crusaders Drum and Bugle Corps.

Instruments and uniforms are FREE. Our 1972 summer schedule consisted of 21 contests in New England, Ohio and Niagara Falls, Canada.

We are the most fun filled and exciting activity in this area, and WE WANT YOU TO JOIN US! Many drum corps members also play in school bands, as their schedules do not conflict. We practice Tuesdays from 7 to 9 pm at the Woburn Street School in Wilmington, and Sunday evenings from 6 to 10 at the Lowell Armory.

Come alone or in a group and look us over, or call 658-8100 or 658-2684. We are a private, non sectarian non profit corporation chartered by the Commonwealth of Massachusetts.

Wilmington

By Roger

Do you know that a two-by-four may not be 2 inches by 4 inches at all?

The fact is that a two-by-four, when it is planed or surfaced, measures 1 1/2 inches by 3 1/2 inches. This is because a surfaced two-by-four is sold by the measurements it had when it was rough. The planing takes off approximately 1/2 of an inch on each side during the planing.

Still, however, these figures are only approximate. When working with planed lumber it is generally a good idea to measure each piece to be sure it fits properly.

It's a good idea to visit Sweet's Home Courtesy Center, 615 Main St., Wilmington, 658-2051 before you tackle any repair or remodeling jobs. We have what you want. Visit our carpeting department where we stock Ludlow and Orite in many colors and patterns and handle installations. We also handle Cristal Ceramic Tile, which is extra thin to make it easier for the do-it-yourselfer to install.

Helpful Hint: Douglas fir is a good wood for framing of houses but does not weather well for outside use.

DEAN
CLARK

The Holiday Inn, of Lowell-Tewksbury, is introducing to the Merrimack Valley the nation's newest singing sensation - Dean Clark. Speaking of Dean, they have said:

"We have taken a twist of Tom Jones - a dash of Andy Williams, added a splash of Engelbert Humperdinck, mixed well with originality, and have perfected the most intoxicating talent ever to appear in the greater Lowell area."

Critics have acclaimed Dean as the most unique song stylist yet to please a night club audience. He is backed by a very talented group known as the "New Arrivals".

After thrilling audiences in Mexico, New Orleans and Las Vegas, Dean's star will rise on Lowell lands, night scene when he makes his first appearance, on September 22nd at the Chateau Room of the Holiday Inn in Tewksbury, where he will star every Tuesday through Saturday evening for a limited engagement.

Why They Call Paul Cronin The Problem Solver

While other people have been talking about problems Cronin has been solving them.

Cronin has the knowledge, training and experience to solve problems. For 11 years as a Selectman, State Representative and Chief Assistant to Congressman Brad Morse, he has done the job. Other people talk about problems, Cronin solves them.

* Unemployment

Paul Cronin convinced the Gillette Company to build its new plant in this area. He also convinced Raytheon Company to construct its new facilities in Andover rather than out of state. The result: literally thousands of jobs saved and new jobs created.

* Property Tax

Paul Cronin has had many of his proposals for county government adopted. If they were all adopted your property tax could be cut in half.

* Senior Citizens With Fixed Incomes

Paul Cronin introduced legislation to assist low-income senior citizens in obtaining better housing financed by the Massachusetts Housing Financing Agency. And he personally introduced half-fare legislation for senior citizens.

* Drug Abuse and Alcoholism

Paul Cronin introduced legislation to establish a state-wide program to control drug abuse, as well as legislation to alleviate the problems of alcoholism.

* The Environment

Paul Cronin submitted legislation on efficient solid waste disposal; and bills to curb oil pollution, provide relief from air pollution and to prohibit the use of DDT. He also filed the "Conservation Bill of Rights" to protect natural resources. This bill will be on the November ballot for ratification by the electorate.

Cornish lovingly remembered on his birthday by his daughter Nancy Sullivan and Family. James Castine lovingly remembered on his birthday by his wife Theresa Castine.

Antonio Proulx (Billerica) from Mr. and Mrs. Walter A. Lawler. Carrie Frost (Lynnfield) from Mr. and Mrs. Walter A. Lawler. Catherine J. Silvey, lovingly remembered on her birthday and all Emily F. Wood, mother of Charlene Campbell (Chelmsford) from Mr. and Mrs. Leland E. Campbell (Westford).

GRANT SANBORN REPORTED KILLED ON CAPE COD

Reports reaching Wilmington last night, which could be neither confirmed nor denied at that time, state that Grant Sanborn, formerly of Church Street, Wilmington, was killed yesterday afternoon, on Cape Cod.

His brother Danny is said to have been seriously injured.

According to a report the two young men were in a head-on collision with a trailer truck.

Both are in the landscape business, and were said to have been in one of their own trucks at the time of the accident.

The Sanborn family is well known and respected in Wilmington.

WHY EDUCATION?

Thoughtful parents know that many of the problems their children face cannot be answered by what is taught at school or learned at home. The church's responsibility is to create an environment where problems can be illuminated by the light of faith in a community of concern.

"Where will my child acquire the moral fiber to choose between compassion and self-interest?"

"How can we learn to defy the dehumanizing effects of technology?"

"How shall we match physical growth with inner strength and maturity to cope with drugs, sexual permissiveness, and material greed?"

"What equips men and women to form strong, constructive and lasting relationships?"

"How can one make ready to conquer pain, frustration, or death?"

"What can I give my child that will enable him to face an uncertain world and to survive?"

Christ Church offers a professionally directed modern and comprehensive program of moral and religious training to children of the community from Pre-Kindergarten through High School. For information, call 475-0529, or send in the blank below.

RULES AND REGULATIONS OF SEWER USE

RULES AND REGULATIONS REGULATING THE USE OF PUBLIC AND PRIVATE SEWERS AND DRAINS, THE INSTALLATION AND CONNECTION OF BUILDING SEWERS, AND THE DISCHARGE OF WATERS AND WASTES INTO THE PUBLIC SEWER SYSTEM(S); AND PROVIDING PENALTIES FOR VIOLATIONS THEREOF: IN THE TOWN OF WILMINGTON, COUNTY OF MIDDLESEX, STATE OF MASSACHUSETTS.*

In accordance with Section 10 of Chapter 83 of the General Laws and Section 11 of Chapter 297 of the Acts of 1958 Wilmington, be it enacted by the Board of Water and Sewer Commissioners of the Town of Wilmington, State of Massachusetts as follows:

ARTICLE I

Definitions (See 3.3)

Unless the context specifically indicates otherwise, the meaning of terms used in these Rules and Regulations shall be as follows:

- Sec. 1. "BOD" (denoting Biochemical Oxygen Demand) shall mean the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five (5) days at 20°C, expressed in milligrams per liter.
- Sec. 2. "Building Drain" shall mean that part of the lowest horizontal piping of a drainage system which receives the discharge from soil, waste, and other drainage pipes inside the walls of the building and conveys it to the building sewer, beginning five (5) feet (1.5 meters) outside the inner face of the building wall.
- Sec. 3. "Building Sewer" shall mean the extension from the building drain to the public sewer or other place of disposal.
- Sec. 4. "Combined Sewer" shall mean a sewer receiving both surface runoff and sewage.
- Sec. 5. "Garbage" shall mean solid wastes from the domestic and commercial preparation, cooking, and dispensing of food, and from the handling, storage, and sale of produce.
- Sec. 6. "Industrial Wastes" shall mean the liquid wastes from industrial manufacturing processes, trade, or business as distinct from sanitary sewage.
- Sec. 7. "Natural Outlet" shall mean any outlet into a watercourse, pond, ditch, lake, or other body of surface or ground water.
- Sec. 8. "Person" shall mean any individual, firm, company, association, society, corporation, or group.
- Sec. 9. "pH" shall mean the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution.
- Sec. 10. "Properly Shredded Garbage" shall mean the wastes from the preparation, cooking, and dispensing of food that have been shredded to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (1/2) inch (1.27 centimeters) in any dimension.
- Sec. 11. "Public Sewer" shall mean a sewer in which all owners of abutting properties have equal rights, and is controlled by public authority.
- Sec. 12. "Sanitary Sewer" shall mean a sewer which carries sewage and to which storm, surface, and ground waters are not intentionally admitted.
- Sec. 13. "Sewage" shall mean a combination of the water-carried wastes from residences, business buildings, institutions, and industrial establishments, together with such ground, surface, and storm waters as may be present.
- Sec. 14. "Sewage Treatment Plant" shall mean any arrangement of devices and structures used for treating sewage.
- Sec. 15. "Sewage Works" shall mean all facilities for collecting, pumping, treating, and disposing of sewage.
- Sec. 16. "Sewer" shall mean a pipe or conduit for carrying sewage.
- Sec. 17. "Shall" is mandatory; "May" is permissive.
- Sec. 18. "Slug" shall mean any discharge of water, sewage, or industrial waste which in concentration of any given constituent or in quantity of flow exceeds for any period of duration longer than fifteen (15) minutes, more than (5) times the average twenty-four (24) hour concentration or flows during normal operation.
- Sec. 19. "Storm Drain" (sometimes termed "Storm Sewer") shall mean a sewer which carries storm and surface waters and drainage, but excludes sewage and industrial wastes, other than unpolluted cooling water.
- Sec. 20. "Superintendent" shall mean the Superintendent of Water and Sewer of the Town of Wilmington, or his authorized deputy, agent, or representative.

Sec. 21. "Suspended Solids" shall mean solids that either float on the surface of, or are in suspension in water, sewage, or other liquids, and which are removable by laboratory filtering.

Sec. 22. "Watercourse" shall mean a channel in which a flow of water occurs, either continuously or intermittently.

ARTICLE II

Building Sewers and Connections

- Sec. 1. No unauthorized person shall uncover, make any connections with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the Superintendent.
- Sec. 2. There shall be two (2) classes of building sewer permits: (a) for residential and commercial service, and (b) for service to establishments producing industrial wastes. In either case, the owner or his agent shall make application on a special form furnished by the Town. The permit application shall be supplemented by any plans, specifications, or other information considered pertinent in the judgement of the Superintendent. A permit and inspection fee for a residential or commercial building sewer permit and for an industrial building sewer permit shall be paid to the Town at the time the application is filed. Such reasonable fees shall be established and voted by the Board of Water and Sewer Commissioners from time to time.
- Sec. 3. All costs and expense incident to the installation and connection of the building sewer shall be borne by the owner. The owner shall indemnify the Town for any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.
- Sec. 4. A separate and independent building sewer shall be provided for every building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.
- Sec. 5. Old building sewers may be used in connection with new buildings only when they are found, on examination and test by the Superintendent, to meet all requirements of these Rules and Regulations.
- Sec. 6. The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing, and backfilling the trench, shall all conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Town. In the absence of code provisions or in amplification thereof the materials and procedures set forth in appropriate specifications of the A.S.T.M. and W.P.C.F. Manual of Practice No. 9 shall apply.
- Sec. 7. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by an approved means and discharged to the building sewer.
- Sec. 8. No person shall make connection of roof downspouts, exterior foundation drains, areaway drains, or other sources of surface runoff or ground water to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer.
- Sec. 9. The Connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Town, or the procedures set forth in appropriate specifications of the A.S.T.M. and the W.P.C.F. Manual of Practice No. 9. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.
- Sec. 10. The applicant for the building sewer permit shall notify the Superintendent when the building sewer is ready for inspection and connection to the public sewer. The connections shall be made under the supervision of the Superintendent or his representative.
- Sec. 11. All excavations for building sewer installation shall be adequately guarded by the owner with barricades, lights, and Police Officers as required by the Town so as to protect the public from hazard. Streets, sidewalks, parkways, and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the Town.

ARTICLE III

Use of the Public Sewers

- Sec. 1. No person shall discharge or cause to be discharged any storm water, surface water, ground water, roof runoff, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.
- Sec. 2. Storm water and all other unpolluted drainage

shall be discharged to such sewers as are specifically designated as storm sewers, or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged, or approval of the Superintendent, to a storm sewer, or natural outlet.

Sec. 3. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

- (a) Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
- (b) Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant.
- (c) Any waters or wastes having a pH lower than (5.5), or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
- (d) Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

Sec. 4. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming his opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances prohibited are:

- (a) Any liquid or vapor having a temperature higher than one hundred fifty (150) °F (65°C).
- (b) Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) mg/l or containing substances which may solidify or become viscous at temperatures between thirty-two (32) and one hundred fifty (150) °F (0 and 65°C).
- (c) Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with a motor of three-fourths (3/4) horsepower (0.75 hp metric) or greater shall be subject to the review and approval of the Superintendent.
- (d) Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solutions whether neutralized or not.
- (e) Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
- (f) Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage to meet the requirements of the State, Federal, or other public agencies or jurisdiction for such discharge to the receiving waters.
- (g) Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.
- (h) Any waters or wastes having a pH in excess of 9.5.
- (i) Materials which exert or cause:
- (1) Unusual concentration of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).

- (2) Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).
- (3) Unusual BOD, chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
- (4) Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.

(j) Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

Sec. 5. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or poses the characteristics enumerated in Section 4 of this Article, and which in the judgement of the Superintendent, may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

- (a) Reject the wastes.
- (b) Require pretreatment to an acceptable condition for discharge to the public sewers.
- (c) Require control over the quantities and rates of discharge, and/or
- (d) Require payment to cover the added cost of handling and treating the wastes not covered by the existing taxes or sewer charges under the provisions of Section 10 of this Article.

If the Superintendent permits the pretreatment of equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent, and subject to the requirements of all applicable codes and laws.

Sec. 6. Grease, oil, and sand interceptors shall be provided when, in the opinion of the Superintendent, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the Superintendent and shall be located as to be readily and easily accessible for cleaning and inspection.

Sec. 7. Where preliminary treatment of flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

Sec. 8. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters, and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessible and safely located, and shall be constructed in accordance with the plans approved by the Superintendent. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.

Sec. 9. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in these Rules and Regulations shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater," published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls where pH's are determined from periodic grab samples.)

Sec. 10. No statement contained in this article shall be construed as preventing any special agreement or arrangement between the Town and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the Town for treatment, subject to payment therefore, by the industrial concern.

Sec. 11. All Rules and Regulations of the Metropolitan

TOWN OF WILMINGTON RULES & REGULATIONS - SEWER USE (From preceding Page)

District Commission covering discharge of sewage, drainage, substances or waste shall be in effect in the Town of Wilmington; said Rules and Regulations of the Metropolitan District Commission, sewage Division, are hereto incorporated by reference to the same extent as if they were fully reproduced herein.

(To assist industries discharging toxic or objectionable metals or non-metals to sewers within the M.D.C. sewer system in interpreting the adopted Rules and Regulations which became effective January 1, 1971.

Toxic or objectionable metals include, but are not limited to, the following:

Antimony	Iron
Arsenic	Lead
Barium	Manganese
Beryllium	Mercury
Boron	Nickel
Cadmium	Selenium
Chromium	Silver
Copper	Tin
	Zinc

Toxic or objectionable non-metals include, but are not limited to:

Chlorides	Phenols
Cyanides	Sulphides

All wastes containing toxic heavy metals must be treated for removal of these metals to values at least equivalent to the minimum solubility of their oxides or hydroxides. Limits for non-metals must be reviewed and approved separately.

Industries discharging or requesting to discharge beryllium, mercury, arsenic or selenium in any quantities are referred to the Division of Water Pollution Control.

The attainment of specific levels for discharge to the public sewer by dilution in the absence of treatment (i.e., by the use of extraneous or other non-process water) is prohibited.

Direct disposal of concentrated plating solutions, whether neutralized or not, shall be prohibited.

Provisions must be made to prevent against accidental or intended discharge.

Sludges, filter cakes, etc., produced by treatment or by naturally occurring deposition in operating baths or tanks, shall not be discharged to the sewer.

A description of the proposed treatment system, including flows of all waste drains and concentrations of toxic or objectionable metals or non-metals before and after treatment must be submitted to the M.D.C. for approval.

ARTICLE IV

Protection from Damage

- Sec. 1. No unauthorized person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the sewage works. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct.

ARTICLE V

Powers and Authority of Inspectors

- Sec. 1. The Superintendent and other duly authorized employees of the Town bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling, and testing in accordance with the provisions of these Rules and Regulations. The Superintendent or his representatives shall have no authority to inquire into any processes including metallurgical, chemical, oil, refining, ceramic, paper, or other industries beyond that point having a direct bearing on the kind and source of discharge to the sewers or waterways or facilities for wastes treatment.

- Sec. 2. While performing the necessary work on private properties referred to in Article V, Section 1 above, the Superintendent or duly authorized employees of the Town shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for injury or death to the Town employees and the Town shall indemnify the company against loss or damage to its property by Town employees and against liability claims and demands for personal injury or property damage asserted against the company and growing out of the gauging and sampling operation, except as such may be caused by negligence or failure of the company to maintain safe conditions as required in Article III, Section 8.

- Sec. 3. The Superintendent and other duly authorized employees of the Town bearing proper credentials and identification shall be permitted to enter all private properties through which the Town holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the sewage works lying within said easement. All entry and subsequent work, if any, on said

easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

ARTICLE VI

Penalties

- Sec. 1. Any person found to be violating any provision of these Rules and Regulations except Article IV shall be served by the Town with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.
- Sec. 2. Any person who shall continue any violation beyond the time limit provided for in Article VI, Section 1, shall be guilty of a misdemeanor, and on conviction thereof shall be fined in the amount not exceeding twenty dollars for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.
- Sec. 3. Any person violating any of the provisions of these Rules and Regulations shall become liable to the Town for any expense, loss, or damage occasioned the Town by reason of such violation.

ARTICLE VII

Validity (see 3.11)

- Sec. 1. All Rules and Regulations or parts thereof in conflict herewith are hereby repealed.
- Sec. 2. The invalidity of any section, clause sentence, or provision of these Rules and Regulations shall not affect the validity of any other part of these Rules and Regulations which can be given effect without such invalid part or parts.

ARTICLE VIII

In Force (See 3.11)

- Sec. 1. These Rules and Regulations shall be in full force and effect from and after their passage, approval, recording, and publication as provided by law.
- Sec. 2. Passed and adopted at a duly authorized meeting of the Board of Water and Sewer Commissioners of the Town of Wilmington, State of Massachusetts held on the 31st day of August, 1972.

Fred Cain named chairman of four sub-committees for Legislature

Rep. Fred F. Cain has been appointed chairman of four House Ways and Means sub-committees to review budgetary needs and audit previously authorized appropriations of as many state agencies.

The four-term lawmaker was named by Ways and Means Chairman Anthony M. Scibelli of Springfield to head the sub-committees on the Department of Public Safety, Department of Labor and Industries, State Racing Commission and the Health and Welfare Commission.

Under the chairmanship of Rep. Scibelli, it has been policy for Ways and Means sub-com-

mittees to visit as many state institutions as possible and to meet with department heads in order to determine their future fiscal needs and whether previously authorized funds are being used for the purposes for which they were appropriated.

In addition to heading four sub-committees, Rep. Cain was named a member of the sub-committees on the Secretary of State, State Treasurer, State Auditor, Attorney General, Secretary of the Governor's Cabinet, and the Departments of Public Works, Public Utilities, Youth Services, Education and Corporations and Taxation.

Wilmington Evening School Registration starts Tuesday

Registration for Wilmington Evening School classes will take place on Tuesday, September 19th and Thursday, September 21st in the High School cafeteria from 7 to 9. Classes will begin the following week and will meet one or two evenings for twenty weeks with the exception of cake decorating, which will be starting on September 26th and will continue for five weeks.

Fees for registration are \$5.00 residents, \$10.00 non-residents payable at the first class meeting. Cake decorating class fee will remain \$1.00.

Basic education for American citizens 18 years or over and who have completed less than six grades of school will be offered.

Classes are open to all adult residents of Wilmington. Enrollment will be accepted in each class until its quota is filled. Others who wish to register, may place their names on a waiting list and will be notified when a vacancy occurs.

Anyone may be allowed to under-

take more than one course, time permitting. Each student must provide his or her own materials, but necessary heavy equipment such as, sewing machines and shop equipment will be provided.

The following is a list of classes and possible evenings:

Tuesday or Thursday - Beginners and advanced clothing, typing, bookkeeping, shorthand, business English and letter writing, basic education, ecology, human behavior, ceramics, public speaking, physics, knitting, printing, home wiring, music appreciation and flower arranging and holiday decorations.

Tuesday and Thursday (high school credit): math, English and history.

Tuesday: Rug braiding, rug hooking, upholstery, oil painting, drafting, woodworking I, and cake decorating.

Thursday: Woodworking II and gourmet cooking.

Back in 1908 there was a sidewalk there

EEA WORK ON WOBURN STREET: Town employees and EEA workers, clearing the old sidewalk on Woburn Street, in Wilmington. The man in the foreground is Larry Redding. In back is Walter Marfleet. Both are Vietnam veterans.

TEWKSBURY SCHOOL CAFETERIA MENUS

Monday: Chicken Croquettes, Gravy, Whipped Potato, Parsley Carrots, Rolls and Butter, Milk, Choice of Fruit.

Tuesday: Frankfurt in a Roll, Mustard and Relish, Carrot and Celery Sticks, French Fries, Tewksbury Tweets and Milk.

Wednesday: Fish Sticks, Whipped Potato, Cabbage and Carrot Slaw, Rolls and Butter, Milk, Jello with Topping.

Thursday: Fruit Juice, Spanish Rice, Meat Sauce, Buttered Green Beans, Corn Bread and Butter, Mid-Nite Chocolate Cake and Milk.

Friday: Tomato and Cheese Pizza, Garden Salad, Ice Cream and Milk.

Sidewalks, in Wilmington, are nothing new. During the depression years, the 1930s, a sidewalk was built along Main St. utilizing both help and funds from the Works Progress Administration. Prior to that the town had built sidewalks, some of the programs going back over 60 years ago.

Lowell Street, for instance, had a nice sidewalk sixty years ago, opposite Avco, and leading to the home of the Misses Swain, who were school teachers, and for whom the Swain School was later named. That sidewalk disappeared under the onslaught of the auto.

There was such a sidewalk, too, along Clark Street and along Middlesex Avenue. The Clark Street one went only to Mill Brook and also disappeared in later years, thanks to the auto.

The latest sidewalk in Wilmington is along Woburn Street and it is also one of the earliest. The town voted in 1908 to take land along Woburn Street for a sidewalk, on the opposite side of the old street car line, for a safety program. Like the others it had a granite-dust surface, a material not seen much today. Granite dust made a very fine surface, soft for the feet, and of pleasing appearance.

Two weeks ago Wilmington EEA employees using both modern machines and the old pick and shovel, uncovered that old sidewalk. Part of the granite dust cover could still be seen.

For the time being the old sidewalk will not be re-surfaced, but there again is a place to walk, along Woburn Street.

EDWARD NOLAN COMPLETES BASIC

Navy Airman Apprentice Edward L. Nolan, son of Mr. and Mrs. John J. Nolan of 81 Salem Road, Tewksbury recently graduated from recruit training at the Naval Training Center in Great Lakes.

We give you the loan, the low rates and the plates

Your Personal Banker will pay for your license plates if you get an auto loan for a 1971, '72 or '73 car at Melrose-Wakefield Trust Company. As long as your loan is current. This applies for car loans of \$1,000 or more.

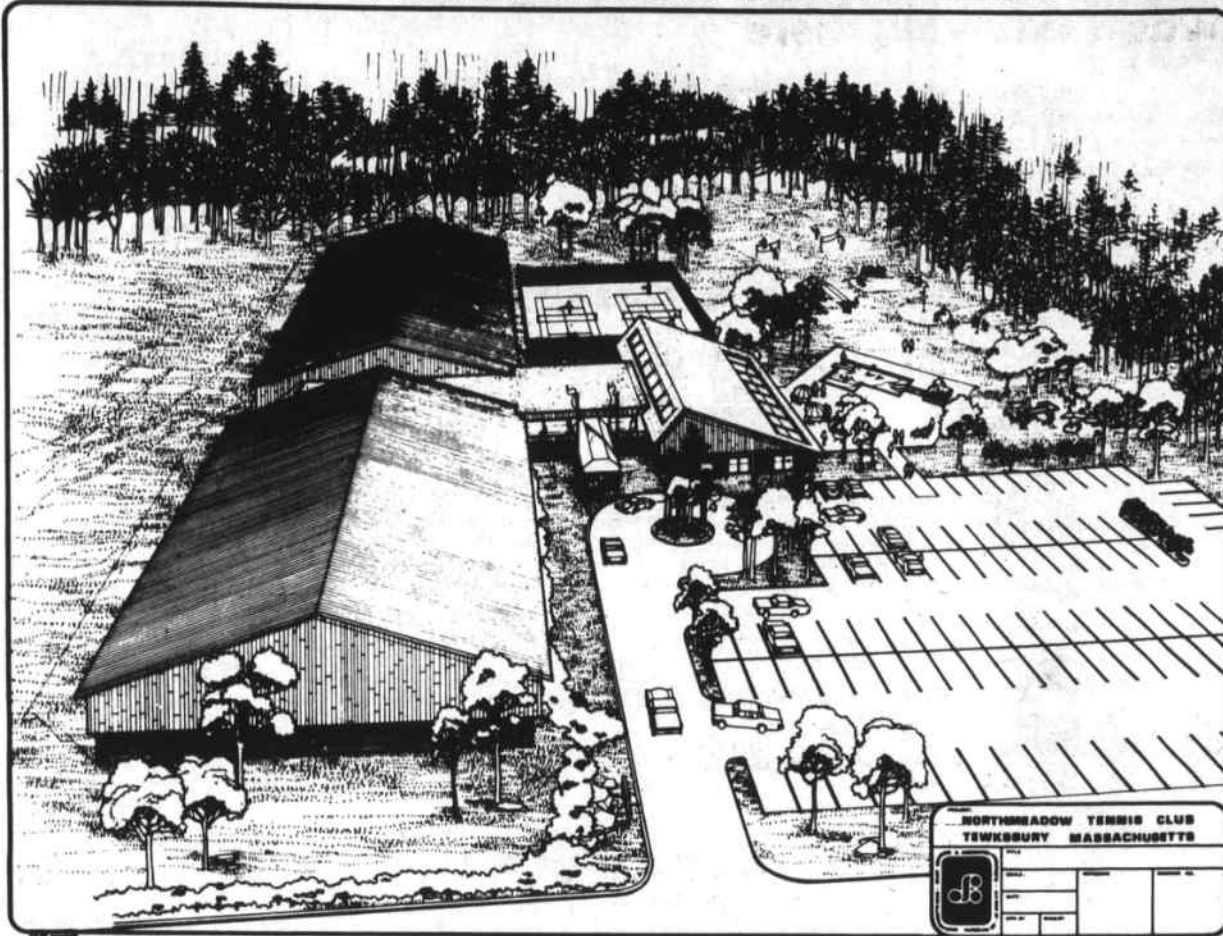

Stop in and see your Personal Banker. He'll help you plan a loan to suit your budget. You could have the money for the car you want within 24 hours.

Your Personal Banker could be the key to your new car. So act now. This offer is for a limited period of time.

The Northmeadow Tennis Club

Eight air-conditioned indoor tennis courts and four outdoor courts offer tennis buffs plenty of opportunity for play at the Northmeadow Tennis Club, presently under construction on Carter Street at East Street, in Tewksbury.

The club will also offer members use of an indoor and outdoor competition-size swimming pools and a host of other recreational and physical fitness facilities.

In addition to the 12 regulation tennis courts, two paddle-tennis courts will be constructed

adjacent to the outdoor courts. Still outdoors, members may take advantage of the putting greens, volleyball and badminton facilities.

Children will be especially interested in the outdoor playground. A series of specially designed and constructed mazes has been added to the usual playground equipment for their enjoyment.

Children too small for the outdoor playground can be left in the nursery located near the entrance to the core building.

The Northmeadow Tennis Club, which is presently accepting charter applications, is slated to open in October.

Antonelli & Baldwin
(From Front Page)

that should be answered on the ballot. The people of the entire commonwealth should decide on the factors involved in it, not 240 men in the legislature.

Antonelli favored repeal of a law which requires many prisoners to serve two-thirds of their

sentences before being considered for parole. He also called for better programs to pay, educate and train guards, increased appropriations for rehabilitation programs for prisoners and community volunteers to visit prisoners.

Baldwin said, "I feel we should take a serious look at the rehabilitation program and reform them so they really work."

Welfare
Antonelli called for federal takeover of the welfare system and its costs.

Baldwin said the state should

make more intensive investigations of welfare abuse and see any monies saved that went to eligible persons.

Personal Programs

The two candidates also spoke of issues of particular concern to them.

Antonelli said the state should notify eligible persons who weren't registered to vote. He proposed having two voting registration sessions each year in high schools to register seniors who are or will be eligible to vote in elections.

Baldwin called for an end to discrimination against young persons by insurance companies. "Only 12 to 14 per cent of youthful drivers are involved in serious accidents. I feel their driving records should determine their insurance rates," he said.

Antonelli called for more consumer protection laws to make manufacturers responsible for their products, end fuel oil cost

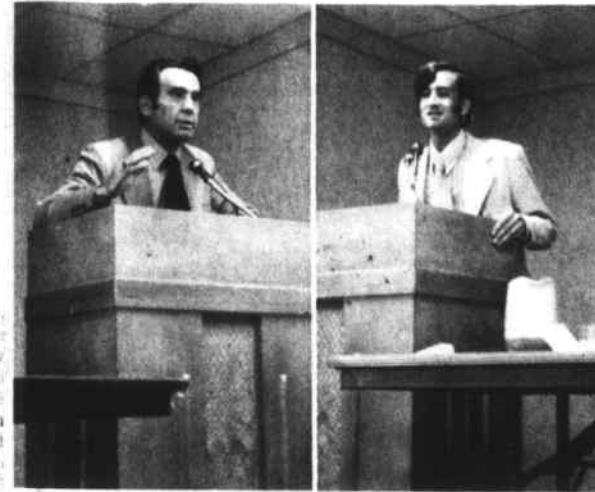

discrimination in the Northeast, lower the cost of electricity to residents and public hearings concerning all rate hikes by utilities.

Baldwin said the state divorce law should be modernized and made more liberal. He proposed safety laws for schools be changed to make them applicable to older schools too. Baldwin said, "Capital punishment should be abolished. Only the Almighty has the right to take a life."

Antonelli also proposed more programs for public housing, extension of the food stamp program to all communities, fining polluters, state aid for community water pollution programs, aid to the elderly, more intensive police training programs.

Agreements

Both candidates backed reorganization of county government, increased health programs, drug abuse programs, economic development, civil service reform. Both opposed state takeover of the MBTA deficit.

CANDIDATES FACING OFF: Frank A. Antonelli, left, and Frederick H. Baldwin Jr. gave Tewksbury residents a chance to compare their views at a political forum Monday night. Both are running in the Democratic primary for state representative.

Wilmington Girl Scouts visit Montreal

WILMINGTON SENIOR GIRL SCOUTS IN MONTREAL: L to R: Joy Passmore, Mary Chester, Joanne MacQuarrie and Valerie Johnson.

The Senior Girl Scouts of Panorama 2 of Troop 112, Wilmington recently returned home from a week long visit to Montreal, Canada and Vermont.

The four girls, Joanne MacQuarrie, Joy Passmore, Valerie Johnson and Mary Chester, accompanied by Mr. and Mrs. Robert Chester, began their visit with a subway ride into Montreal. They were surprised by the cleanliness of the subway system and by the fact that they use rubber tires on their trains, making them much quieter than our American subways.

The group enjoyed a visit to "Man and His World" on the island of Ste Helene where they went into the pavilions of many different countries, such as Iran where a man was making a beautiful rug with an intricate design. One of the highlights was seeing the steel drum band from Trinidad perform at the Kioske International. They especially liked LaRonde, the amusement area at "Man and His World" where they rode on many of the rides, played miniature golf and

browsed through the Canadian village.

The celebrated the final evening in Canada at the Helene de Champlain, a beautiful French restaurant, also on the island of Ste Helene.

After leaving Montreal, where their uniforms had drawn many stares and comments, they headed for Shelburne Museum outside Burlington, Vermont. They spent the day exploring the many buildings and seeing the interesting collections of things from days gone by.

In the midst of this museum containing almost 40 buildings, stands the S.S. Ticonderoga, the last surviving sidewheel steamship! On board they show movies of its incredible journey, which took six months, from Lake Champlain over highways, across railroad tracks and through a swamp to her permanent mooring at Shelburne Museum.

Their final night was spent in Sharon, Vermont where they enjoyed the hospitality of Mr. and Mrs. Frank Johnson of Wilmington.

Wilmington Legion Installation Saturday Eve

American Legion Post 136 and its Auxiliary will conduct a joint installation of officers at the hall on Middlesex Ave., on Saturday evening, Sept. 16th, beginning at 7:30.

Legion officers to be installed include: Commander, Bruno Lother; Sr. Vice, James Murray; Jr. Vice, Robert Brown; Adjutant, Harold Murray; Finance, Joseph Schwartz; Asst. Finance,

Larry Noel; Historian, Kenneth Maynard; Chaplain, Frank Thebeau; Sgt. at Arms, Roland Noel; Judge Advocate, John Winters; Executive Board, Ralph Zwicker, Jr.; Larry Noel, Kenneth Maynard, Robert Brown and Angus MacFeeley; County Delegate, Harold Murray and Angus MacFeeley; Alternates, John Winters and Frank Thebeau and Dept. Delegate, Robert Brown; Alternate, John Winters.

Tewksbury planning Board

IT'S ONE MORE TIME FOR BEECHWOOD ESTATES

The Tewksbury Planning Board promised another chapter in the continuing story of Beechwood Estates Tuesday night by refusing again to sign a covenant with the subdivision. The action was taken because the covenant didn't meet board requirements.

The board voted August 10 to rescind approval of the subdivision because it had no covenant with Beechwood. Beechwood officials subsequently appealed the rescission and the appeal is due to be heard October 2 in Cambridge Superior Court.

The dispute appeared to be resolved September 1 when Atty. William Rambler, representing Beechwood, said subdivision officials would sign a standard form covenant with the board and

would drop the appeal.

Rambler appeared with a covenant Tuesday night, but upon examination the board discovered a section was missing from the document. The section, normally included in Tewksbury covenants, required subdivision officials to post security with the board before construction of drainage and roads could begin.

Board member Edward A. Flanagan said after the meeting, "They could have started construction immediately without any security."

Flanagan, and the other board members present, George B. Donovan and Chairman Joseph Doherty, refused to sign the covenant presented by Rambler. Later they voted 3-0 to sign any covenant presented by Beechwood which included all of the board's requirements.

Births

DELLASCIO: Sharon Marie, second child, second daughter to Mr. and Mrs. Alan Dellascio of 87 Shawshen Ave., Wilmington on September 5th at Winchester Hospital.

Grandparents include Mrs. Fred Freeman of Dorchester and Mr. and Mrs. Al Dellascio of South Boston.

FOSTER: Brian Edward, second child, first son to Mr. and Mrs. John R. Foster, Jr. of 8 Pinewood Road, Tewksbury on August 23 at Cambridge Hospital.

Grandparents include Mr. and Mrs. Henry S. Bagrowski of North St., Wilmington and Mr. and Mrs. John R. Foster of Rhoda St., Tewksbury.

Great grandparents include: Alton Hanscom of Cambridge, and Mrs. E. McRitchie of Tewksbury.

Great great grandmother is Mrs. Ruby Holland of Somerville.

Two Year Old (From Front Page)

who had apparently fallen head-first into the barrel and the water that rested on its bottom.

She took the child inside and called the police. When the police arrived, Ptl. Samuel G. Stephens applied mouth-to-mouth resuscitation until the Fire Department ambulance arrived. Firefighters Philip W. Zerofski and James J. Graham applied oxygen and heart massage as they rushed to the boy to St. John's Hospital in Lowell, where he was pronounced dead.

Sgt. Phillip D. Bradanick said the barrel rested against an automobile engine covered with canvas, which in turn rested against a car battery. He said he found signs the child had used the battery and engine as steps leading to the barrel, where he apparently fell in.

MARY CAVANAUGH AT WINDHAM COLLEGE

Mary E. Cavanaugh, daughter of Mr. and Mrs. Robert L. Cavanaugh of 9 Powderhouse Circle has enrolled at Windham College in Putney, Vermont and began her studies on Sept. 5th. Windham is a four-year liberal arts college.

JACKSON: Tracy Lee, first child to Mr. and Mrs. James Jackson of Lowell on August 21st at Choate Memorial Hospital.

Grandparents include Mr. and Mrs. John Adams of Reading and Mr. and Mrs. Leland Jackson of 7 Frederick Drive, Wilmington and Mrs. Ruth Adams, also of Wilmington.

SHEEHAN: Brenda Joyce, second daughter to S/Sgt. and Mrs. William P. Sheehan, Jr. (Lauris Moorman) of Columbus Air Force Base, Mississippi, on August 25th.

Grandparents include Mr. and Mrs. Howard Moorman, Jr. of 5 Loumac Rd., Wilmington and Mr. and Mrs. William P. Sheehan of West Street.

Great grandparents are Mr. and Mrs. Howard C. Moorman, Sr. of North Falmouth, Mass. and Mr. and Mrs. William Cesar of East Hampstead, N.H.

ROBERT CONLIN CANDIDATE FOR FRESH FOOTBALL AT SPRINGFIELD COLLEGE

Robert Conlin, son of Mr. and Mrs. Robert Conlin, a 1972 graduate of Wilmington High School is a candidate for the fresh-football team at Springfield College. Coached by Jack Neumann the Chiefs are looking forward to another successful season. Last year they had a record of 2-2.

WILMINGTON REC BRIDGE CLASSES

The Wilmington Recreation Department will sponsor Bridge Classes with Bill Bradley serving as instructor in room 112 at the High School, beginning on Tuesday, Sept. 26th at 7:30 pm.

Separate classes will be held for beginner and intermediate students if enough interest is shown.

The ten week course will cost \$10.00 per person.

For further information, contact Bill Bradley at 658-3639.

AUSTIN PREP TO PRESENT "GAY NINETIES CABARET"

Austin Preparatory School in Reading will present its first social of the season, "Gay Nineties Cabaret" on Saturday evening, September 23rd beginning at 8 o'clock. Dancing will be enjoyed from 8 until midnight to the music of "Fred Reynolds and the Good Time Jazz Band" who are being brought back by popular demand. A buffet will be served and sing-a-long music will be offered. Tickets, at \$3.50 per person may be obtained by calling the school at 944-4900 or by contacting Paul Lyman at 658-8840.

CATHOLIC SCOUT RETREAT NEXT WEEKEND

Father Cotter of St. Theresa's Parish in West Roxbury will be the program master for the Catholic Scout Retreat to be held at the City Health Club on West Meadow Rd., in Lowell on Sept. 22nd, 23rd and 24th.

Check in time will be at 5 pm on Friday and check out time will be after inspection on Sunday.

Each patrol is advised to bring their own fuel and their own good conduct - each unit will be responsible for its own. At least one adult must accompany each unit.

Registration fee will be \$1.00. Those interested should contact Bernie Shea, 851-2234; Tom Joyce, 658-6769 or John Virtus, 658-5486.

AN OPEN LETTER TO GEORGE MCGOVERN

Kennedy

U. S. CONGRESS

76 Merrimack Street, Lowell, Mass. 01852 (tel) 459-6146
351 Essex Street, Lawrence, Mass. 01840 (tel) 685-7746

Senator George McGovern
United States Senate
Washington, D.C.

September 14, 1972

Dear Senator McGovern,

I have just finished studying your welfare proposals calling for over eight billion additional welfare dollars next year and I strongly oppose your approach. The real answer to our welfare problem is to put people back to work.

In Massachusetts we already spend over half of our state budget to support the welfare system and the result is a ridiculous bureaucracy that is riddled with scandal and abused by a lot of employable people.

Senator, I ask you, how can the situation be improved by increasing the welfare budget by eight billion dollars a year?

I say that it can't be! I am a firm believer in the value and the necessity of work. I strongly urge you to stop trying to spend our country out of the "welfare mess" and address yourself to the problem of unemployment. Working people don't need welfare.

I want you to know beforehand that if I'm elected to Congress and you're elected President, I will oppose welfare increases and I will try to dismantle the present welfare system because it is inhumane, it is scandalous, and it is far, far too expensive.

Sincerely,
Robert Kennedy
Robert Kennedy

P.S. Good luck on November

Town Meeting decision still two weeks away

The upshot of a combined meeting of Selectmen, School Committee and Permanent Building Committee, Monday evening in Wilmington Town Hall was that the Board of Selectmen will wait another two weeks before deciding on when to call for a Special Town Meeting.

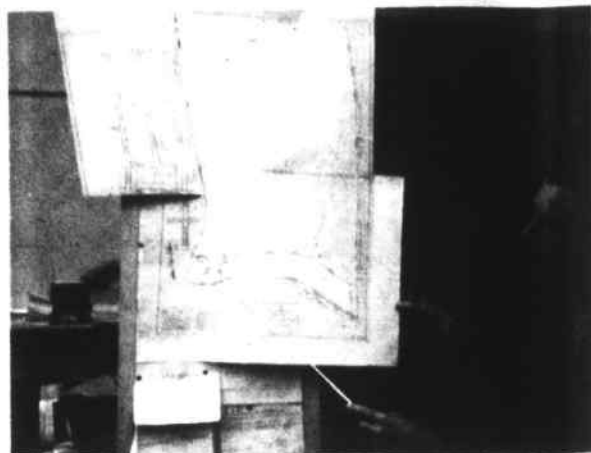

For several months there have been preparations leading toward such a meeting, the purpose of which will be to ask for the purchase of more land and for an addition to, or a new high school.

A proposed warrant has been made up for such a Special Town Meeting, if and when it is called.

and much of the discussion was about the order that warrant articles should appear, and how they would be discussed.

Ken Miller, Civil Engineer, displayed a combination map showing land of about 92 acres in area, in North Wilmington. He has been surveying the area for some time. The proposed land is beside the Wildcat Railroad, and north of Salem Street. There are no homes or dwellings on the property, some of which is town owned.

The town will be asked to purchase the land, in the coming Special Town Meeting.

KEN MILLER AND MAP: Showing the area planned to be taken in North Wilmington for school purposes. Mr. Miller's pointer is at the corner of the Lenois property on Salem Street, and other homes are to the right with the Corum home being against the Wildcat Railroad, at far right.

The taking would go along the Wildcat Railroad, and over to the 'paper streets' at left. The southernmost of these is Buttersworth Road, and the westernmost is Lipp Road.

Part of the area shown had not been surveyed since the Wilmington-Andover Railroad was surveyed, prior to 1835.

Tewksbury police asked to take lie Test

A Tewksbury patrolman has accused other police of spreading false stories stating he refused to take a lie detector test to prove or disprove claims he was harassed by members of the Police Department.

The patrolman, who asked not to be identified, said he proposed the idea that every member of the Police Department take lie detector tests to ascertain who was telling the truth about alleged harassment.

He said he wrote each of the town selectmen in early August, complaining he was harassed by other police after he pressed charges against a relative of a reserve patrolman.

"The person I arrested was later convicted of possession of marijuana and fireworks," said the patrolman. After pressing the charges, he said, he was threatened by another patrolman and anonymous telephone callers. In separate incidents in his locker at the Police Station, he said, he found his raincoat slashed and a leg cut off a pair of his pants.

Before the selectmen met to discuss the patrolman's com-

plaint, he said, the argument between the threatening patrolman and him was resolved by Lt. Walter J. Jop, and the complaining patrolman asked the selectmen to drop the matter.

The patrolman said he was accused of refusing to take a lie detector test by Police Department representatives at an August 27 meeting between them and Selectman Charles H. Goldstein. Goldstein attended the

Wilmington Police claim Contract Violation

The national police union asked the U.S. Department of Labor this week to investigate an alleged contract violation surrounding Town Manager Sterling Morris's hiring of two patrolmen for the Wilmington Police Department.

Jerry Langone, national representative for the International Brotherhood of Police Officers, also questioned "whether the town manager should be allowed to continue as town manager" because of the alleged violation.

The union asserts two patrolmen hired by Town Manager Sterling Morris with federal PEP (Public Employment Program) funds have been assigned work that violates PEP contractual agreements.

Langone said the alleged violation resulted in infringements of the town's contract with the IBPO. He said he expected a DoL investigation would correct the problems, but added if the corrections weren't made the union might take action against Morris for allegedly violating the labor laws.

Langone said Morris hired two men with PEP funds which, according to Langone, are allocated to help communities augment regular municipal departments.

"Mr. Morris claims these men are regular police officers, but they are only being used to fill in for other men on vacation. If he is going to call them regular officers, they should be working regular shifts full-time, but they are only working to fill in those vacation slots," said Langone.

Langone interpreted PEP laws to mean that hiring men for vacation fill-ins was not augmenting the regular staff of the Police Department.

The union's public relations head, Peter N. Harrington, said the IBPO was concerned because the alleged violation resulted in regular patrolmen not getting overtime pay they would earn if they were filling in shifts of vacationing men.

"When the town appropriated money for vacations, it was with the understanding it would be used to pay regular men overtime pay," said Harrington. "If these special patrolmen were regulars, they would have regular shifts and would be paid overtime for filling in during vacations, but they haven't any other duties, so they are paid on straight salary."

"If they are regular men, why were they sworn in as special officers? I'm sure Mr. Morris is attempting to save money, but in doing so he is violating con-

A HOUSE IN THE ROAD: Not by the side of the road, but in the way of the road - the one proposed by Rep. Fred F. Cain at the Wilmington Planning Board meeting of a week ago.

He showed the plan to the Wilmington selectmen, Monday, and said a house was being built in the projected road. Tuesday a concrete truck poured concrete for the foundation of the home.

tracts and depriving regular men of overtime pay."

Harrington maintained the alleged PEP violation resulted in violations of the overtime clauses in the town's contract with the IBPO. He said the union would

await the results of the DoL investigation before deciding whether to take legal action concerning the police contract.

When contacted about the IBPO charges, Morris said he had no comment concerning them.

MRS. VERENCE HENSELY: Of Andover Street, Wilmington, shown with George Boylen, chairman of the Board of Selectmen, has been appointed to the Industrial Commission of Wilmington. She submitted her resignation as a member of the CPAC to the Planning Board Tuesday.

Send money.

We're very sly.

We figure, if we can make you happy with the new cars you buy from us, you'll not only keep coming back for new cars yourself.

You'll send your friends here too. So all we have to do is give you a lot of great car for your money, and great service after you buy.

Among other things, this has led us to install an elaborate tracking system in our shop that practically guarantees you'll be able to bring your car in when it's convenient for you, and get it back — right — exactly when it's promised.

If we do our job right, we not only have a satisfied customer.

We have a salesman.
